

**what:** The First Annual LOBO/Lancair Fly-in!

**when:** 7 – 9 October, 2011

**where:** Taney County Airport (KPLK), Branson, MO

LOBO and Lancair International, Inc. are excited to keep you up to date on the latest information about the upcoming LOBO/Lancair Fly-in this October in beautiful Branson, MO. We are tremendously excited to announce on Saturday, 8 October, George Braly, of General Aviation Modifications, Inc. (GAMI) will make a presentation on his company's effort to develop a viable alternative fuel to power our aircraft into the 21<sup>st</sup> century.

GAMI is a recognized industry leader in aviation piston engine problem solving, upgrade and improvement. Using the most sophisticated and sensitive test equipment in the industry, Mr. Braly and GAMI have spent decades acquiring data on the intricacies of the big-bore piston engines powering most of our aircraft; his knowledge and expertise in this area are unmatched.

Don't miss this chance to hear from a renowned expert on current general aviation industry trends and efforts to find a replacement for 100LL!
