

SEPTEMBER 28-30

2012 LOBO/LANCAIR FLY-IN

DOOR PRIZES!

Some of you are coming to the 2012 LOBO/Lancair Fly-In in Sedona, AZ to hang out with old friends and make new ones. Some of you want access to the incredible brain trust of information and to learn to better maintain and fly your Lancair professionally and safely. Some of you will experience one of the most beautiful pieces of landscape in the world. Some of you just want to look at all the Lancair eye candy flying in from all over the country. And finally, some of you are coming for the SWAG! (You know who you are.)

We have great news for the last group, because Aircraft Specialties Lubricants has gone all out this year: They've donated two four-packs of their CamGuard™ oil additive product and a \$200 gift certificate for [Aircraft Specialties & Services](#). ASL says CamGuard addresses unique problems related to corrosion, wear, deposits and seal degradation in piston engines, and that it improves the performance of and is compatible with all aviation oils including mineral based, and semi-synthetic types. Its corrosion control properties make it particularly beneficial for infrequently used engines. Don't miss a chance to treat your engine to a little TLC or to go on a \$200 bender at Aircraft Specialties & Services—sign up for the 2012 LOBO/Lancair fly-in now!

For more information regarding the Fly-in please contact Lisa Williams or Claudette Colwell.
